Project Manager
Interior Designer
MEP Consultant
Quantity Surveyor
Area

Merx
AD Inc
DSCO
Merx, Cost Management
20,000 ft²

The total floor area taken by Macquarie was just over 20,000ft² and the office will house a total of 145 staff. The project forms part of Macquarie's Asian office 'roll out' expansion following the acquisition of the ING Asia Securities Division in early 2004. Merx have undertaken the appointment of all consultants, suppliers and contractors based on pre-qualifications, open tenders and negotiations. As part of the project management role taking ownership of the progress, audit trail, communication structure and cost plans to meet the client delivery expectations were Merx key functions. The Macquarie Bank premise allows for both back-of-house and front-of-house banking operations. There are currently 24 new dealer positions, 121 "back of house" desking positions, one main Comms & UPS room, 2 full function Audio Visual Conference rooms, 8-10 other dedicated meeting rooms, a cutting edge designed breakout space for staff relaxation and informal meetings, an elegant main reception and fundamentally open plan office.
